Blast® Injectable is an advanced injectable acid with the performance of strong mineral acids, combined with improved safety. It is a blended acid formulation that will reduce bicarbonates in the water and carbonates in the soil.

Directions for Use

WHAT IT DOES:	Blast Injectable is designed to reduce bicarbonates in the water and dissolve carbonate build up in the soil.
WHERE AND WHEN TO USE	Blast Injectable is recommended for use on fine turfgrasses such as those found on golf courses, athletic fields, and other highly maintained areas. For best results inject on a night when applying lower volumes of irrigation water.
APPLICATION RATES AND FREQUENCY	Inject Blast Injectable at a rate of 1-2 gallons per acre monthly or as needed. For best results inject on a night when applying lower volumes of irrigation water. For more severe conditions, inject 2 gallons per acre every other week until the conditions improve. Then maintain conditions by injecting 1-2 gallons monthly or as needed.

Precautionary Statements/First Aid Measures in Case of Contact

DANGER: Toxic if swallowed.
DANGER: Causes severe skin burns and eye damage

- Avoid breathing vapors or mists.
- Avoid using product in a manner as to directly, or through drift, expose workers or other persons.
- Always consult the safety data sheet for specific instructions.
- Applicators and other handlers must wear goggles or a facial splash shield; chemical resistant gloves, such as nitrile rubber ≥ 14 mils or neoprene rubber ≥ 14 mils; coveralls or long sleeved shirt and trousers; shoes plus socks.
- Keep out of reach of children

First aid measures in case of contact

- **General Information:** Immediately remove any clothing soiled by the product. Symptoms of poisoning may even occur after several hours; therefore medical observation should be continued for at least 48 hrs after the accident.
- **EYE:** Rinse opened eye for several minutes under running water. Then consult a doctor. Call a doctor immediately. Remove contact lenses, if present. Hold eyelids apart and flush with water for at least 15 minutes.
- **SKIN:** Immediately wash with water and soap and rinse thoroughly.
- **INGESTION:** Immediately call a doctor. Drink large amounts of water and provide fresh air. Immediately call a doctor.

Precautionary Statements/First Aid Measures in Case of Contact *(continued)*

- **INHALATION:** In case of unconsciousness, place patient stably in side position for transportation.

Applicators and other handlers should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove protective clothing and equipment after handling. Wash the outside of gloves before removing. Wash thoroughly and change into clean clothing.

For technical information and Safety Data Sheet (SDS), contact Aquatrols at 1-800-257-7797 or visit our website at www.aquatrols.com.

IMPORTANT

Concentrated Blast Injectable is corrosive. STAINLESS STEEL equipment should be flushed with water immediately following use. At label dosage rates in irrigation water, Blast Injectable will not harm aluminum sprinkler pipes, sprinkler pumps, metal components in irrigation.

Storage and Disposal

- Store in original container only. Keep in a secure and locked storage area. Must NOT be disposed of together with household garbage. Do not allow product to reach sewage system.
- Disposal must be made in accordance with local, state, and federal regulations.
