1.1 Product Identifier

Product name: Dispatch Sprayable

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use: Wetting agent

1.3 Details of the supplier of the safety data sheet

Company: Aquatrols Corporation
1273 Imperial Way
Paulsboro, NJ 08066

Website: www.aquatrols.com

Phone number: (856) 537-6003

Email: jyichye@aquatrols.com

1.4 Emergency telephone

Phone number: CHEMTEL - (800) 255-3924
CHEMTEL INTERNATIONAL- +1-813-248-0585

2.1 Classification of the substance or mixture

Product description: Mixture

Classification according to 29 CFR 1910.1200

H318: Serious eye damage – Category 1

2.2 GHS label elements
Hazard pictograms:
Signal word: DANGER
Hazard statements: H318: Causes serious eye damage
Precautionary statements
Prevention: Wear eye/face protection
Response: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.

2.3 Other hazards which do not result in classification
May cause skin irritation.

SECTION III: COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substance/Mixture: Mixture

3.2 Hazardous ingredients

<table>
<thead>

SECTION IV: FIRST AID MEASURES

4.1 Description of first aid measures

General advice:  Show this SDS to the doctor in attendance.  
First responder needs to protect himself. 
Place affected apparel in a sealed bag for subsequent 
decontamination.

Inhalation:  If inhaled, remove to fresh air. 
If not breathing, give artificial respiration.  If breathing is 
difficult, give oxygen. 
Consult a physician if necessary.

Skin contact:  In case of contact, immediately flush skin with plenty of water 
for at least 15 minutes while removing contaminated clothing 
and shoes.  Get medical attention if irritation develops or 
persist.  Wash contaminated clothing before re-use.

Eye contact:  Flush eyes with water at least 15 minutes.  Seek medical advice.

Ingestion:  Do not induce vomiting without medical advice.  Immediate 
medical attention is required.  If victim is conscious, drink plenty 
of water and do not leave victim unattended.  Vomiting may 
occur spontaneously.  Seek medical advice.

4.2 Most important symptoms and effects, both acute and delayed.

Symptoms after inhalation:  Inhalation of product may aggravate 
existing chronic respiratory problems 
such as asthma, emphysema or 
bronchitis.

Symptoms after skin contact:  Skin contact may aggravate existing skin 
disease.

4.3 Indication of any immediate medical attention and special treatment needed

Note to physician:  Treat symptomatically.

SECTION V: FIREFIGHTING MEASURES
5.1 Extinguishing media

Suitable extinguishing media: Dry chemical, CO₂, foam, water spray.

Unsuitable extinguishing media: High volume water jet

5.2 Special hazards arising from the substance or mixture

Specific hazards during firefighting: Under fire conditions, will burn.

Hazardous decomposition products: Carbon oxides.

5.3 Advice for firefighters

Special protective equipment: Firefighters should wear approved self-contained breathing apparatus and full protective clothing.

Further information: Standard procedure for chemical fires. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

SECTION VI: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures.

Wear suitable protective equipment. For further information, see Section VIII “Exposure Controls/Personal Protection”.

6.2 Environmental precautions

Do not flush into surface water or sanitary sewer system. Take all necessary measures to avoid accidental discharge of products into drains and waterways due to the rupture of containers or transfer systems. Spills should be reported to local agencies.

6.3 Methods and materials for containment and cleanup

Methods of containment: Stop leak if safe to do so.
Dam up with sand or inert earth (do not use combustible materials).

Recovery: Soak up with inert absorbent materials.
Shovel or sweep up.
Keep in suitable, closed container for disposal.
Never return spills to original containers for re-use.

Decontamination/cleaning:
Clean contaminated surface thoroughly.
Wash non-recoverable remainder with large amounts of water.
Recover the cleaning water for subsequent disposal.
Decontaminate tools, equipment and personal protective equipment in a segregated area.

Disposal:
Dispose of in accordance with local regulations.

6.4 Reference to other sections
See Section VII for Handling and Storage.

SECTION VII: HANDLING AND STORAGE

7.1 Precautions for safe handling of the substance/mixture.

Technical measures:
Provide adequate ventilation.

Advice on safe handling and usage:
Avoid inhalation of vapor or mist.
Avoid contact with skin and eyes.

Hygiene measures:
Personal hygiene is an important workplace practice exposure control measure and the following general measures should be taken when working with or handling this material:
1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.
2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.
3) Wash exposed skin promptly to remove accidental splashes or contact with material.

7.2 Conditions for safe storage, including any incompatibilities

Storage conditions

To be avoided: Uncoated metals. Keep away from open flames, hot surfaces and sources of ignition. Keep away from incompatible materials

Storage stability

Storage temperature: 4 - 49°C

7.3 Specific end use(s)

See Section I

SECTION VIII: EXPOSURE CONTROLS/PERSONAL PROTECTION

General comments

These recommendations provide general guidance for handling this product. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. Assistance with selection, use and maintenance of worker protection equipment is generally available from equipment manufacturers.

8.1 Control parameters

Local and general ventilation.

8.2 Exposure controls

Exposure limits: Contains no substances with occupational exposure limit values.

Protective measures: Ensure that eyewash stations and safety showers are close to workstation. Emergency equipment immediately accessible, with instructions for use. Selection of appropriate personal protective equipment should be based on an evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of use, and the potential hazards, and/or risks that may occur during use.
Respiratory protection: When respirators are required, use approved equipment based on actual or potential airborne concentrations and in accordance with the appropriate regulatory standards and/or industrial recommendations.

Hand protection: Gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time.

Eye protection: Eye and face protection will vary dependent upon work, environmental conditions and material handling practices. Appropriate approved equipment should be selected for the particular use intended for this material. Eye contact should be prevented through the use of safety glass with side-shields.

Body protection: Footwear protecting against chemicals; impervious clothing.

Hygiene measures: Personal hygiene is an important workplace practice exposure control measure and the following general measures should be taken when working with or handling this material:

1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.

2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.

3) Wash exposed skin promptly to remove accidental splashes or contact with material.

SECTION IX: CHEMICAL AND PHYSICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Physical state: Liquid
Form: Liquid
Color: Brown
Odor: Characteristic
Odor threshold: No data available
pH: 5.0 – 7.0 (5% m/v)
Freezing point: < 8°C
Boiling point: Not determined

Flashpoint: > 96°C
Evaporation rate: Not determined
Flammability: Not determined
Upper explosive limit: No data available
Lower explosive limit: No data available
Vapor pressure: No data available
Vapor density: No data available
Specific gravity: > 1.0 g/mL (25°C)
Solubility: Soluble in water
Partition n-octanol/water: No data available
Autoignition temperature: No data available
Thermal decomposition: No data available
Viscosity: 174 mPa.s (25°C)
Explosive properties: No data available
Oxidizing properties: No data available

9.2 Other information

Non volatiles by weight: 29.7%

SECTION X: STABILITY AND REACTIVITY

10.1 Reactivity
No data available

10.2 Chemical stability
Stable under recommended storage conditions.

10.3 Possibility of hazardous reactions
Hazardous polymerization will not occur.

10.4 Conditions to avoid
Keep away from heat and sources of ignition.

10.5 Incompatible materials
Strong acids. Strong oxidizing agents.

**10.6 Hazardous decomposition products**
Carbon oxides.

### SECTION XI: TOXICOLOGICAL INFORMATION

#### 11.1 Information on toxicological effects

**Acute toxicity**
- Acute oral toxicity: Not classified as harmful if swallowed.
- Acute inhalation toxicity: May cause irritation.
- Acute dermal toxicity: May cause irritation.
- Acute toxicity (other routes of administration): May cause irritation.

**Skin corrosion/irritation**
- Skin irritation: Rabbit
  - Slight irritation
  - By analogy

**Serious eye damage/eye irritation**
- Eye irritation: Risk of serious damage to eyes.
  - According to data on components.
  - According to the classification criteria for mixtures.

**Respiratory or skin sensitization**
- Sensitization: No data available

**Mutagenicity**
- Genotoxicity in vitro: No data available
- Genotoxicity in vivo: No data available

**Carcinogenicity**
- Carcinogenicity: No data available

**Toxicity for reproduction and development**
- Toxicity to reproduction/fertility: No data available
- Developmental toxicity/teratogenicity: No data available

### SECTION XII: ECOLOGICAL INFORMATION
12.1 Toxicity
Toxic to aquatic aquatic plants

</tbody>
</table>

12.2 Persistence and degradability
Readily biodegradable

12.3 Bioaccumulative potential
No data available

12.4 Mobility in soil
No data available

12.5 Results of PBT and vPvB assessment
No data available

12.6 Other adverse effects
No data available

SECTION XIII: DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods
Advice on disposal: Chemical additions, processing or otherwise altering this material may make the waste management information presented in this SDS incomplete, inaccurate or otherwise inappropriate. Please be advised that local requirements for waste disposal may be more restrictive or otherwise different from federal laws and regulations. Consult local regulations regarding proper disposal of this material.

Contaminated containers: Rinse with appropriate solvent. Dispose of contents/container in accordance with local regulations.

SECTION XIV: TRANSPORT INFORMATION
In accordance with the provisions of ADR/RID/ADNR/IMDG/ICAO/IATA

14.1 UN Number
Not classified as dangerous

14.2 Shipping name UN Model
Not applicable

14.3 Transport hazard class
Not applicable

14.4 Packing group
Not applicable

14.5 Environmental hazards
Other information: No additional information available

14.6 Special precautions for use
No additional information available

14.6.1 Ground transport
No additional information available

14.6.2 Sea transport
No additional information available.

14.6.3 Air transport
No additional information available

14.7 Transport in bulk according to Annex II of Marpol 73/78 and IBC Code
Not applicable.

SECTION XV: REGULATORY INFORMATION

15.1 Safety legislation specific for the substance or mixture

15.1.1 National regulations
No information available

15.2 Chemical safety assessment
No information available
More information

Abbreviations

ADR: European Agreement Concerning the International Carriage of Dangerous Goods by Road
IMDG: International Maritime Code for Dangerous Goods
LC50: Lethal Concentration 50%
LD50: Lethal Dose 50%
EC50: Effective Dose 50%
CLP: Classification, Labelling and Packaging
CAS: Chemical Abstract Service
RID: Regulations concerning the International Carriage of Dangerous Goods by Rail
IATA-DGR: International Air Transport Association Dangerous Goods Regulations
GHS: Globally Harmonized System (GHS) of Labelling Chemical Products
IARC: International Agency for Research on Cancer

Version: 1.0
Previous version: Not applicable
Reason for revision: New SDS

The information in this SDS, to our knowledge, is accurate at the data of publication. This information is intended as a guide for safe handling, use, processing, storage, transportation, disposal and release, and is not to be considered a guarantee or indication of quality. The information relates only to the specific material and may not be valid in combination with other products or used in any process, unless specified in the text.
