

**SECTION I: Identification of the Substance/Mixture and of the Company/Undertaking****1.1 Product Identifier**

Product name: SperSal 35

**1.2 Relevant identified uses of the substance or mixture and uses advised against**

Use: Soil conditioner

**1.3 Details of the supplier of the safety data sheet**Company: Aquatrols Corporation of America  
1273 Imperial Way  
Paulsboro, NJ 08066Website: [www.aquatrols.com](http://www.aquatrols.com)

Phone number: (856) 537-6003

Email: [jyichye@aquatrols.com](mailto:jyichye@aquatrols.com)**1.4 Emergency telephone**Phone number: CHEMTEL - (800) 255-3924  
CHEMTEL INTERNATIONAL- +1-813-248-0585**SECTION II: Hazards Identification****2.1 Classification of the substance or mixture**

Product description: Mixture

**Classification according to GHS**

Met. Corr. 1: H290

Eye Irrit. 2: H319

For full text of Hazard Statements: See Section XVI

**2.2 GHS label elements**

**Hazard Pictogram (CLP):**
**Signal Word:**

WARNING

**Hazard Statement:**

H290: May be corrosive to metals  
H319: Causes serious eye irritation

**Precautionary Statements:**

P234: Keep only in original container  
P280: Wear protective gloves/goggles  
P264: Wash contaminated skin thoroughly after handling  
P305+P351+P338: IF IN EYES: Rinse cautiously with water for 20 minutes. Remove contact lenses, if present and easy to do. Continue rinsing  
P337+P313: If eye irritation persists: Get medical attention/advice.  
P406: Store in corrosive resistant container with a resistant inner liner.

**2.3 Other hazards which do not result in classification**

No information available

<b>SECTION III: COMPOSITION/INFORMATION ON INGREDIENTS</b>
--

**3.1 Substance/Mixture:** Mixture

**3.2 Hazardous ingredients**

Chemical Name	CAS No.	Classification	Concentration
Organic acid	-	Acute Tox. 4 Skin Irrit. 2 Eye Irrit. 2 Skin Sens. 1 STOT SE 3	1-5%
Polycarboxylic acid	-	Met. Corr. 1 Eye Irrit. 2	30-60%

### 3.3 Non-hazardous ingredients and impurities

Chemical Name	CAS No.	Classification	Concentration
Water	7732-18-5	Not classified	25-65%

## SECTION IV: FIRST AID MEASURES

### 4.1 Description of first aid measures

- General advice:** Show this SDS to the doctor in attendance.  
First responder needs to protect himself.  
Place affected apparel in a sealed bag for subsequent decontamination.
- Inhalation:** Provide fresh air, warmth and rest, preferably in a comfortable upright sitting position.  
Get medical attention if any discomfort continues.
- Skin contact:** Immediately remove contaminated clothing. Rinse immediately with plenty of water. Continue rinsing for at least 15 minutes.  
Get medical attention if irritation persists after washing.
- Eye contact:** Remove victim immediately from source of exposure.  
Immediately flush with plenty of water for up to 15 minutes.  
Remove any contact lenses and open eyes wide apart. Get medical attention promptly if symptoms occur after washing.
- Ingestion:** Rinse mouth thoroughly. Never give liquid to an unconscious person. Do not induce vomiting. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention.

### 4.2 Most important symptoms and effects, both acute and delayed.

- Symptoms after inhalation: No specific symptoms noted. Irritation of nose, throat and airway.

Symptoms after ingestion:	No specific symptoms noted. May cause discomfort if swallowed. May cause stomach pain or vomiting.
Symptoms after eye contact:	Irritation of eyes and mucous membranes. Profuse watering of the eyes.
Symptoms after skin contact:	No specific symptoms noted. Prolonged skin contact may cause redness and irritation.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Note to physician:	All treatments should be based on observed signs and symptoms of distress to the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.
--------------------	--

Treat symptomatically. There is no specific antidote available.

### SECTION V: FIREFIGHTING MEASURES

#### 5.1 Extinguishing media

Suitable extinguishing media:	Dry chemical, CO <sub>2</sub> , foam, water spray.
Unsuitable extinguishing media:	Not applicable.

#### 5.2 Special hazards arising from the substance or mixture

Specific hazards during firefighting:	Under fire conditions, will burn.
Hazardous decomposition products:	Carbon oxides. Nitrous gases. Sulfurous gases.

#### 5.3 Advice for firefighters

Special protective equipment:	Firefighters should wear approved self-contained breathing apparatus and full protective clothing.
Further information:	Standard procedure for chemical fires. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire

extinguishing water must be disposed of in accordance with local regulations.

## SECTION VI: ACCIDENTAL RELEASE MEASURES

### 6.1 Personal precautions, protective equipment and emergency procedures.

Contain material by diking the area around the spill. Soak up using a suitable inert absorbent material, then shovel into recovery drums.

### 6.2 Environmental precautions

Do not flush into surface water or sanitary sewer system. Take all necessary measures to avoid accidental discharge of products into drains and waterways due to the rupture of containers or transfer systems. Spills should be reported to local agencies.

### 6.3 Methods and materials for containment and cleanup

Methods of containment:	Stop leak if safe to do so. Dam up with sand or inert earth (do not use combustible materials).
Recovery:	Soak up with inert absorbent materials. Shovel or sweep up. Keep in suitable, closed container for disposal. Never return spills to original containers for re-use.
Decontamination/cleaning:	Clean contaminated surface thoroughly. Wash non-recoverable remainder with large amounts of water. Recover the cleaning water for subsequent disposal. Decontaminate tools, equipment and personal protective equipment in a segregated area.
Disposal:	Dispose of in accordance with local regulations.

### 6.4 Reference to other sections

See Section VII for Handling and Storage.

## SECTION VII: HANDLING AND STORAGE

### 7.1 Precautions for safe handling of the substance/mixture.

Technical measures:	Provide adequate ventilation.
Advice on safe handling and usage:	Avoid inhalation of vapor or mist. Avoid contact with skin and eyes.
Hygiene measures:	Personal hygiene is an important workplace practice exposure control measure and the following general measures should be taken when working with or handling this material: <ol style="list-style-type: none"><li>1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.</li><li>2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.</li><li>3) Wash exposed skin promptly to remove accidental splashes or contact with material.</li></ol>

## 7.2 Conditions for safe storage, including any incompatibilities

### Storage conditions

Recommended:	Store in tightly closed original container in a dry cool place. Store at temperature below 50°C. Do not store for extended periods below freezing point or in direct sunlight. IF FROZEN: once fully thawed, agitate container vigorously to ensure the product is homogenous.
To be avoided:	Keep away from open flames, hot surfaces and sources of ignition. Keep away from incompatible materials Do NOT use container made of carbon steel.

### Storage stability

Storage temperature:	No data available.
----------------------	--------------------

## 7.3 Specific end use(s)

See Section I

**General comments**

These recommendations provide general guidance for handling this product. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. Assistance with selection, use and maintenance of worker protection equipment is generally available from equipment manufacturers.

**8.1 Control parameters**

Contains no substances with occupational exposure limit values.

**8.2 Exposure controls**

Exposure limits:	Not established
Protective measures:	Ensure that eyewash stations and safety showers are close to workstation. Emergency equipment immediately accessible, with instructions for use. Selection of appropriate personal protective equipment should be based on an evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of use, and the potential hazards, and/or risks that may occur during use.
Respiratory protection:	When respirators are required, use approved equipment based on actual or potential airborne concentrations and in accordance with the appropriate regulatory standards and/or industrial recommendations.
Hand protection:	Gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time.
Eye protection:	Eye and face protection will vary dependent upon work, environmental conditions and material handling practices. Appropriate approved equipment should be selected for the particular use intended for this material. Eye contact should be prevented through the use of safety glass with side-shields.

Body protection:	Footwear protecting against chemicals; impervious clothing.
Hygiene measures:	Personal hygiene is an important workplace practice exposure control measure and the following general measures should be taken when working with or handling this material: <ol style="list-style-type: none"><li>1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.</li><li>2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.</li><li>3) Wash exposed skin promptly to remove accidental splashes or contact with material.</li></ol>

## SECTION IX: CHEMICAL AND PHYSICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

<b>Physical state:</b>	Liquid
<b>Form:</b>	Liquid
<b>Color:</b>	Amber
<b>Odor:</b>	Slight odor
<b>Odor threshold:</b>	No data available
<b>pH:</b>	< 2
<b>Initial boiling point:</b>	100-102°C (760 mm Hg)
<b>Melting point:</b>	< -5 °C
<b>Freezing point:</b>	No data available
<b>Flashpoint:</b>	No data available.
<b>Evaporation rate:</b>	Not determined
<b>Flammability:</b>	Will burn
<b>Upper explosive limit:</b>	No data available
<b>Lower explosive limit:</b>	No data available
<b>Vapor pressure:</b>	No data available
<b>Relative density:</b>	1.12-1.14 g/mL (68°F (20°C))
<b>Solubility:</b>	Soluble in water
<b>Partition n-octanol/water:</b>	logP <sub>ow</sub> < 2
<b>Autoignition temperature:</b>	No data available
<b>Thermal decomposition:</b>	No data available
<b>Viscosity:</b>	< 6 cP (25°C)

**Explosive properties:** No data available  
**Oxidizing properties:** No data available

**9.2 Other information**

Not applicable

**SECTION X: STABILITY AND REACTIVITY****10.1 Reactivity**

No data available

**10.2 Chemical stability**

Stable under recommended storage conditions.

**10.3 Possibility of hazardous reactions**

Hazardous polymerization will not occur.

**10.4 Conditions to avoid**

Keep away from heat and sources of ignition. Keep away from flames and sparks.

**10.5 Incompatible materials**

Strong oxidizing agents.

**10.6 Hazardous decomposition products**

Carbon oxides. Nitrous gases. Sulfurous gases.

**SECTION XI: TOXICOLOGICAL INFORMATION****11.1 Information on toxicological effects****Acute toxicity**

Acute oral toxicity: LD50 >2,000 mg/kg – Rat  
Acute inhalation toxicity: No data available  
Acute dermal toxicity: No data available

Acute toxicity (other routes of administration): No data available

**Skin corrosion/irritation**

Skin irritation: No data available

**Serious eye damage/eye irritation**

Eye irritation: No data available

**Respiratory or skin sensitization**

Sensitization: No data available

**Mutagenicity**

Genotoxicity in vitro: No data available

Genotoxicity in vivo: No data available

**Carcinogenicity**

Carcinogenicity: No data available

**Toxicity for reproduction and development**

Toxicity to reproduction/fertility: No data available

Developmental toxicity/teratogenicity: No data available

**SECTION XII: ECOLOGICAL INFORMATION****12.1 Toxicity**

Acute aquatic toxicity: Fish - LC50 96 hours 580 mg/L  
Aquatic invertebrates – EC50 48 hours > 1000 mg/L  
Daphnia magna

Chronic aquatic toxicity: No data available.

**12.2 Persistence and degradability**

No data available

**12.3 Bioaccumulative potential**

No data available

**12.4 Mobility in soil**

No data available

**12.5 Results of PBT and vPvB assessment**

No data available

**12.6 Other adverse effects**

No data available

**SECTION XIII: DISPOSAL CONSIDERATIONS**

**13.1 Waste treatment methods**

Advice on disposal: Chemical additions, processing or otherwise altering this material may make the waste management information presented in this SDS incomplete, inaccurate or otherwise inappropriate. Please be advised that local requirements for waste disposal may be more restrictive or otherwise different from federal laws and regulations. Consult local regulations regarding proper disposal of this material.

Contaminated containers: Rinse with appropriate solvent. Dispose of contents/container in accordance with local regulations.

**SECTION XIV: TRANSPORT INFORMATION**

In accordance with the provisions of ADR/RID/ADNR/IMDG/ICAO/IATA

**14.1 UN Number**

DOT/TDG: 3265  
IMDG: 3265  
ICAO: 3265

**14.2 Shipping name UN Model**

DOT: CORROSIVE LIQUID, ACIDIC, ORGANIC N.O.S. (Contains polymaleic acid)  
TDG: CORROSIVE LIQUID, ACIDIC, ORGANIC N.O.S. (Contains polymaleic acid)

**14.3 Transport hazard class**

DOT: 8  
DOT Hazard label: Corrosive

**14.4 Packing group**

DOT: III

**14.5 Environmental hazards**

Other information: No additional information available

**14.6 Special precautions for use**

No additional information available

**14.6.1 Ground transport**

No additional information available

**14.6.2 Sea transport**

IMDG: III  
IMDG Code Segregation: 1. Acids.

**14.6.3 Air transport**

Air pack group: III

**14.7 Transport in bulk according to Annex II of Marpol 73/78 and IBC Code**

Not applicable.

**SECTION XV: REGULATORY INFORMATION****15.1 Safety legislation specific for the substance or mixture****US Federal Regulations**

TSCA Registered:	Yes
SARA Title III Section 313:	Unknown
R&D Exemption:	Unknown

**15.2 Chemical safety assessment**

No information available.

**SECTION XVI: OTHER INFORMATION****More information****Abbreviations**

ADR:	European Agreement Concerning the International Carriage of Dangerous Goods by Road
IMDG:	International Maritime Code for Dangerous Goods
LC50:	Lethal Concentration 50%
LD50:	Lethal Dose 50%
EC50:	Effective Dose 50%
CLP:	Classification, Labelling and Packaging
CAS:	Chemical Abstract Service
RID:	Regulations concerning the International Carriage of Dangerous Goods by Rail
IATA-DGR:	International Air Transport Association Dangerous Goods Regulations
GHS:	Globally Harmonized System (GHS) of Labelling Chemical Products
Hazard Statements:	H315: Causes skin irritation H319: Causes serious eye irritation

**Version:** 1.0

<b>Previous version:</b>	Not applicable
<b>Reason for revision:</b>	New SDS

The information in this SDS, to our knowledge, is accurate at the data of publication. This information is intended as a guide for safe handling, use, processing, storage, transportation, disposal and release, and is not to be considered a guarantee or indication of quality. The information relates only to the specific material and may not be valid in combination with other products or used in any process, unless specified in the text.
