SECTION I: Identification of the Substance/Mixture and of the Company/Undertaking

1.1 Product Identifier

Product name: Advantage Plus

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use: Wetting agent

1.3 Details of the supplier of the safety data sheet

Company: Aquatrols Corporation
1273 Imperial Way
Paulsboro, NJ 08066

Website: www.aquatrols.com

Phone number: (856) 537-6003

Email: jyichye@aquatrols.com

1.4 Emergency telephone

Phone number: CHEMTEL- (800) 255-3924

SECTION II: Hazards Identification

2.1 Classification of the substance or mixture

Product description: Mixture

Not classified

2.2 GHS label elements

Not a hazardous product according to the Globally Harmonized System (GHS)

2.3 Other hazards which do not result in classification
Slightly irritating to eyes and skin.

SECTION III: COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substance/Mixture: Mixture

3.2 Hazardous ingredients

No ingredients are hazardous

3.3 Non-hazardous ingredients and impurities

SECTION IV: FIRST AID MEASURES

4.1 Description of first aid measures

General advice: Show this SDS to the doctor in attendance. First responder needs to protect himself. Place affected apparel in a sealed bag for subsequent decontamination.

Inhalation: Negligible or unlikely exposure pathway. If inhaled, remove to fresh air. Consult a physician if necessary.

Skin contact: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention if irritation develops or persists. Wash contaminated clothing before re-use.

Eye contact: Flush eyes with water at least 15 minutes. Get medical attention if eye irritation develops or persists.

Ingestion: Do not induce vomiting without medical advice. If victim is conscious, rinse with water, keep at rest, do not give anything
to eat or drink, and do not leave victim unattended. Vomiting may occur spontaneously. Seek medical advice.

4.2 Most important symptoms and effects, both acute and delayed.

Symptoms after inhalation: Inhalation of product may aggravate existing chronic respiratory problems such as asthma, emphysema or bronchitis.

Symptoms after skin contact: Skin contact may aggravate existing skin disease.

4.3 Indication of any immediate medical attention and special treatment needed

Note to physician: All treatments should be based on observed signs and symptoms of distress to the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

Treat symptomatically. There is no specific antidote available.

SECTION V: FIREFIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media: Dry chemical, CO₂, foam, water spray.

Unsuitable extinguishing media: High volume water jet (frothing possible)

5.2 Special hazards arising from the substance or mixture

Specific hazards during firefighting: Under fire conditions, will burn.

Hazardous decomposition products: Carbon oxides.

5.3 Advice for firefighters

Special protective equipment: Firefighters should wear approved self-contained breathing apparatus and full protective clothing.

Further information: Standard procedure for chemical fires. Collect contaminated fire extinguishing water
In accordance to OSHA Standard 1910.1200

6.1 Personal precautions, protective equipment and emergency procedures.

Wear suitable protective equipment. For further information, see Section VIII “Exposure Controls/Personal Protection”.

6.2 Environmental precautions

Do not flush into surface water or sanitary sewer system. Take all necessary measures to avoid accidental discharge of products into drains and waterways due to the rupture of containers or transfer systems. Spills should be reported to local agencies.

6.3 Methods and materials for containment and cleanup

Methods of containment: Stop leak if safe to do so.
Dam up with sand or inert earth (do not use combustible materials).

Recovery: Soak up with inert absorbent materials.
Shovel or sweep up.
Keep in suitable, closed container for disposal.
Never return spills to original containers for re-use.

Decontamination/cleaning: Clean contaminated surface thoroughly.
Wash non-recoverable remainder with large amounts of water.
Recover the cleaning water for subsequent disposal.
Decontaminate tools, equipment and personal protective equipment in a segregated area.

Disposal: Dispose of in accordance with local regulations.

6.4 Reference to other sections

See Section VII for Handling and Storage.

SECTION VI: ACCIDENTAL RELEASE MEASURES

SECTION VII: HANDLING AND STORAGE
7.1 Precautions for safe handling of the substance/mixture.

Technical measures: Ethylene oxide may collect in container headspace. Provide adequate ventilation.

Advice on safe handling and usage: Avoid inhalation of vapor or mist. Avoid contact with skin and eyes.

Hygiene measures: Personal hygiene is an important workplace practice exposure control measure and the following general measures should be taken when working with or handling this material:

1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.
2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.
3) Wash exposed skin promptly to remove accidental splashes or contact with material.

7.2 Conditions for safe storage, including any incompatibilities

Storage conditions

Recommended: Keep container tightly closed in a dry, well-ventilated place.

To be avoided: Keep away from open flames, hot surfaces and sources of ignition.
Keep away from incompatible materials

Storage stability

Storage temperature: No data available.

7.3 Specific end use(s)

See Section I

SECTION VIII: EXPOSURE CONTROLS/PERSONAL PROTECTION
General comments

These recommendations provide general guidance for handling this product. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. Assistance with selection, use and maintenance of worker protection equipment is generally available from equipment manufacturers.

8.1 Control parameters

Contains no substances with occupational exposure limit values.

8.2 Exposure controls

Exposure limits: Not established

Protective measures: Ensure that eyewash stations and safety showers are close to workstation. Emergency equipment immediately accessible, with instructions for use. Selection of appropriate personal protective equipment should be based on an evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of use, and the potential hazards, and/or risks that may occur during use.

Respiratory protection: When respirators are required, use approved equipment based on actual or potential airborne concentrations and in accordance with the appropriate regulatory standards and/or industrial recommendations.

Hand protection: Gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time.

Eye protection: Eye and face protection will vary dependent upon work, environmental conditions and material handling practices. Appropriate approved equipment should be selected for the particular use intended for this material. Eye contact should be prevented through the use of safety glass with side-shields.
Body protection: Footwear protecting against chemicals; impervious clothing.

Hygiene measures: Personal hygiene is an important workplace practice exposure control measure and the following general measures should be taken when working with or handling this material:

1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.

2) Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.

3) Wash exposed skin promptly to remove accidental splashes or contact with material.

9.1 Information on basic physical and chemical properties

Physical state: Solid
Form: Pellet
Color: Blue
Odor: Mild
Odor threshold: No data available
pH: 8
Freezing point: <68°F (20°C)
Flashpoint: 237°F (114°C) Pensky-Martens Closed Cup
Evaporation rate: Not determined
Flammability: Not determined
Upper explosive limit: No data available
Lower explosive limit: No data available
Vapor pressure: Not applicable
Relative density: Not determined
Solubility: Soluble in water
Partition n-octanol/water: No data available
Autoignition temperature: Product is not self-igniting
Thermal decomposition: No data available
Viscosity: No data available
Explosive properties: Product does not present an explosion hazard
Oxidizing properties: No data available

**9.2 Other information**

Non volatiles by weight: 100%

**SECTION X: STABILITY AND REACTIVITY**

10.1 Reactivity
No data available

10.2 Chemical stability
Stable under recommended storage conditions.

10.3 Possibility of hazardous reactions
Hazardous polymerization will not occur.

10.4 Conditions to avoid
Keep away from heat and sources of ignition. Keep away from flames and sparks.

10.5 Incompatible materials
Strong bases. Strong oxidizing agents.

10.6 Hazardous decomposition products
Carbon oxides.

**SECTION XI: TOXICOLOGICAL INFORMATION**

11.1 Information on toxicological effects

**Acute toxicity**
- Acute oral toxicity: No data available
- Acute inhalation toxicity: No data available
- Acute dermal toxicity: No data available
- Acute toxicity (other routes of administration): No data available

**Skin corrosion/irritation**
- Skin irritation: No data available

**Serious eye damage/eye irritation**
Eye irritation: No data available

**Respiratory or skin sensitization**

Sensitization: No data available

**Mutagenicity**

Genotoxicity in vitro: No data available
Genotoxicity in vivo: No data available

**Carcinogenicity**

Carcinogenicity: No data available

**Toxicity for reproduction and development**

Toxicity to reproduction/fertility: No data available
Developmental toxicity/teratogenicity: No data available

**SECTION XII: ECOLOGICAL INFORMATION**

**12.1 Toxicity**

Acute aquatic toxicity: According to the data on the components, this product does not have any known adverse effects on the aquatic organisms tested according to the classification criteria for mixtures.

Chronic aquatic toxicity: According to the data on the components, this product does not have any known adverse effects on the aquatic organisms tested according to the classification criteria for mixtures.

**12.2 Persistence and degradability**

No data available

**12.3 Bioaccumulative potential**

No data available

**12.4 Mobility in soil**

No data available

**12.5 Results of PBT and vPvB assessment**

No data available

**12.6 Other adverse effects**
SECTION XIII: DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

Advice on disposal: Chemical additions, processing or otherwise altering this material may make the waste management information presented in this SDS incomplete, inaccurate or otherwise inappropriate. Please be advised that local requirements for waste disposal may be more restrictive or otherwise different from federal laws and regulations. Consult local regulations regarding proper disposal of this material.

Contaminated containers: Rinse with appropriate solvent. Dispose of contents/container in accordance with local regulations.

SECTION XIV: TRANSPORT INFORMATION

In accordance with the provisions of ADR/RID/ADNR/IMDG/ICAO/IATA

14.1 UN Number
Not classified as dangerous

14.2 Shipping name UN Model
Not applicable

14.3 Transport hazard class
Not applicable

14.4 Packing group
Not applicable

14.5 Environmental hazards
Other information: No additional information available

14.6 Special precautions for use
No additional information available

14.6.1 Ground transport
No additional information available

14.6.2 Sea transport
14.6.3 Air transport
No additional information available

14.7 Transport in bulk according to Annex II of Marpol 73/78 and IBC Code
Not applicable.

SECTION XV: REGULATORY INFORMATION

15.1 Notification status

United States TSCA Inventory: YES (positive listing)
On TSCA inventory

Canadian Domestic Substances List (DSL): YES (positive listing)
All components of this product are on the Canadian DSL

Australia Inventory of Chemical Substances (AICS): YES (positive listing)
On the inventory, or in compliance with the inventory

Japan CSCL – Inventory of Existing and New Chemical Substances: YES (positive listing)
On the inventory, or in compliance with the inventory

Korea Korean Existing Chemicals Inventory (KECI): YES (positive listing)
On the inventory, or in compliance with the inventory

China Inventory of Existing Chemical Substances in China (IECSC): YES (positive listing)
On the inventory, or in compliance with the inventory

15.2 Federal Regulations

SARA 311/312 Hazards

Fire Hazard: No
Reactivity Hazard: No
Sudden Release of Pressure Hazard: No
Acute Health Hazard: No
Chronic Health Hazard: No

**SARA 313**
This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

**SARA 302**
No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

**EPCRA – Emergency Planning and Community Right-to-Know**
No reportable quantities.

### 15.3 State regulations

**California Proposition 65:**
WARNING! This product contains chemicals known in the State of California to cause cancer.
1,4-dioxane
Ethylene oxide
Propylene oxide

WARNING! This product contains chemicals known in the State of California to cause birth defects or other reproductive harm.
Ethylene oxide.

No Significant Risk Levels (NSRLs) have been established for the following:
1,4-dioxane
Value: 30 micrograms per day

Ethylene oxide
Value: 2 micrograms per day

---

**SECTION XVI: OTHER INFORMATION**

More information

**NFPA (National Fire Protection Association) Classification**
Safety Data Sheet
In accordance to OSHA Standard 1910.1200

Revision: 1.0 US
Issuing Date: 3/15/2016

Health: 0 minimal
Flammability: 1 slight
Instability or Reactivity: 0 minimal

HMIS (Hazardous Materials Identification System) Classification

Health: 0 minimal
Flammability: 1 slight
Reactivity: 0 minimal

Abbreviations

ADR: European Agreement Concerning the International Carriage of Dangerous Goods by Road
IMDG: International Maritime Code for Dangerous Goods
LC50: Lethal Concentration 50%
LD50: Lethal Dose 50%
EC50: Effective Dose 50%
CLP: Classification, Labelling and Packaging
CAS: Chemical Abstract Service
RID: Regulations concerning the International Carriage of Dangerous Goods by Rail
IATA-DGR: International Air Transport Association Dangerous Goods Regulations
GHS: Globally Harmonized System (GHS) of Labelling Chemical Products
REACH: Registration, Evaluation, Authorization and Restriction of Chemical Products

Version: 1.0
Previous version: Not applicable
Reason for revision: New SDS

The information in this SDS, to our knowledge, is accurate at the data of publication. This information is intended as a guide for safe handling, use, processing, storage, transportation, disposal and release, and is not to be considered a guarantee or indication of quality. The information relates only to the specific material and may not be valid in combination with other products or used in any process, unless specified in the text.
