CONDITIONS OF SALE LIMITATION OF LIABILITY AND REMEDIES AQUATROLS CORPORATION OF AMERICA

Injury to the crop on which the product is applied may result from the occurrence of extraordinary or unusual weather conditions, the failure to follow the label directions or good application practices, all of which are beyond the control of the seller. In addition, failure to follow label directions may cause injury to other crops, animals, man, or the environment.

This product is to be used and applied according to the label directions by professionals trained in the use of agricultural chemicals.

This material is not intended for use by, nor should be used by, consumers. The seller warrants that this product conforms to the chemical description on the label.

The seller makes no other warranties or representations of any kind, expressed or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law.

The exclusive remedy against the seller for any cause of action relating to the handling or use of this product is claim for damage, and in no event shall damages or any other recovery of any kind against the seller exceed the price of the product which causes the alleged loss, damage, injury or other claim. The seller shall not be liable and any and all claims against the seller are waived, for special, indirect, incidental or consequential damages or expenses, of any nature including but not limited to, loss of profits or income, or any liability incurred by the buyer to any third party in any way arising out of or relating to the handling, repackaging from original container or the relabeling by the buyer or user, or use of this product, whether or not based on the seller's negligence, breach of warranty, strict liability in tort or any other cause of action.

The seller offers this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

GENERAL INFORMATION

EvenFlow enhances the infiltration and penetration of applied irrigation water, rainfall, and water soluble fertilizers in agricultural soils using patented technology. EvenFlow will enhance irrigation efficiency and improve moisture levels in the soil providing an enhanced growing environment for cropping systems. EvenFlow may be applied through pressurized irrigation system or by conventional spray methods. EvenFlow can be used for early growing season soil applications to promote uniform emergence.

RECOMMENDED RATES

INFILTRATION & PENETRATION: Apply at ½-8 pints per acre for enhanced infiltration and penetration of water and solutes.

APPLICATION METHODS

INJECTION THROUGH IRRIGATION SYSTEMS: Inject EvenFlow at ½ to 8 pints per acre through pressurized irrigation system.

CONVENTIONAL SPRAYERS: EvenFlow may be spray applied at ½ to 8 pints per acre. Irrigation or rainfall should follow application.
