CONTAINS NON-PLANT FOOD INGREDIENTS:

Active Ingredient 21.5% Alkoxylated polyols
8.0% D-Glucopyranose, oligomeric, octyl decyl glycoside

Inert Ingredient 70.5% Water

NOT RECOMMENDED FOR USE AS A FERTILIZER SUBSTITUTE

Causes serious eye damage.

270 gallons (1022 L)

Density at 68°F = 8.5 lbs/gal

LOT NO:

GENERAL INFORMATION

EvenFlow enhances the infiltration and penetration of applied irrigation water, rainfall, and water soluble fertilizers in agricultural soils using patented technology. EvenFlow will enhance irrigation efficiency and improve moisture levels in the soil providing an enhanced growing environment for cropping systems. EvenFlow may be applied through pressurized irrigation system or by conventional spray methods. EvenFlow can be used for early growing season soil applications to promote uniform emergence.

RECOMMENDED RATES

INFILTRATION & PENETRATION: Apply at ½ to 8 pints per acre for enhanced infiltration and penetration of water and solutes.

APPLICATION METHODS

INJECTION THROUGH IRRIGATION SYSTEMS: Inject EvenFlow at ½ to 8 pints per acre through pressurized irrigation system.

CONVENTIONAL SPRAYERS: EvenFlow may be sprayed applied at ½ to 8 pints per acre. Irrigation or rainfall should follow application.
