**INGREDIENTS**
- **Active Ingredient:** Polyoxyethylene-polyoxypropylene block copolymer (7.5%)
- **Other Ingredients:** Natural and synthetic surfactants, water, and corn oil.

**PACKAGING**
- 2.5 lbs (1.13 kg) bag.
Aquatrols Flex provides rapid recovery of stressed turf, with visible results in as little as 3 DAYS when applied at the recommended rate. Aquatrols Flex also provides up to 30-DAY PROTECTION against the development of broadleaf dry spot when applied on a monthly basis. Whether you are dealing with existing problems or looking for month-long protection against them, Aquatrols Flex is designed to fit into your turf management program. Aquatrols Flex is safe to use on all turf varieties, areas, including golf course greens, lawns, landscapes, athletic fields, and residential lawns. It can also be used on ornamental gardens, landscapes, tree trunks, and shrubs.

GENERAL INFORMATION
Aquatrols Flex is a nonionic soil surface-applied product intended for a fully dispersed lawn mower. This results in a dry granular formulation that provides performance with the convenience of a spreader applicator. Aquatrols Flex was developed to provide turf managers the ability to treat turf stress symptoms quickly and effectively. Aquatrols Flex is biodegradable and non-toxic to plants and animals. Aqueduct Flex can safely be applied in the spring, before the irrigation system is up and running, and is labeled for use on turf areas, including golf course greens, lawns, landscapes, athletic fields, and residential lawns. It can also be used on ornamental gardens, landscapes, tree trunks, and shrubs.

DIRECTIONS FOR USE
Turf (Non-Courses, Athletics Fields & Lawn Areas)
Apply 2.5 lbs/1000 sq ft (1.25 kg/100 m²) around the area from the drip line to the trunk. Repeat as needed to maintain uniform moisture distribution in the soil.

Seeding:
Apply at 1 lb/1000 sq ft (0.5 kg/100 m²). Reapply on a monthly basis. Irrigate before next mowing or leave baskets off.

Trees & Shrubs:
Apply 2.5 lbs/1000 sq ft (1.25 kg/100 m²). Reapply at 2.5 lbs/1000 sq ft (1.25 kg/100 m²) on a monthly basis. Allow water to be introduced to the contents of the container. Do not allow water to be introduced to the contents of the container.

TRENDY GARDENS & LANDSCAPES
Plant & Species:
Spray: 2.5 lbs/1000 sq ft (1.25 kg/100 m²) onto the surface for up to 30 day protection against symptoms of stressful conditions. Aquatrols Flex 30 lb bag.

Golf Courses, Athletic Fields & Lawn Areas
